

MEMBERSHIP SERVICES

The European Cluster of Ceramics has been the central point of contact for the ceramics community since 2002, bringing a network of 200 members together.

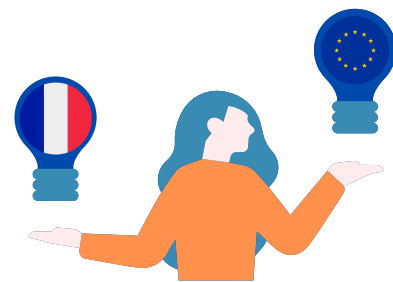

Its mission is to promote innovation, competitiveness and cooperation between companies, research centres and training organisations. Always attentive to its members, **the cluster supports the growth of companies through innovative project developments** on a national and European scale. It is also committed to structuring the industry and promoting training, skills as well as local areas.

The cluster is the main access point to ceramic technologies and assists its network in energy, environmental and digital transitions. Members are offered support, intelligence, promotional and networking services.

A membership gives you full access to the cluster's services and preferential rates.
